Queen size sheets are larger than those for a double bed mattress, so they can fully cover the mattress. However, their larger size can lead to a relaxed fit. Queen size beds are 60 inches wide and 80 inches long. Double beds, also called full size beds, are slightly smaller at 54 inches wide and 75 inches long. A flat queen size sheet can fit on any smaller bed, as it can be tucked in. However, placed sheets better fit the specific layer size provided on the label.
